1.5M COUNTER GUIDE

1

Open and remove all items from the box labelled 'table frame and clamps'.

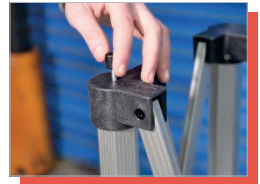

2

With two people standing opposite each other, take hold of the two corner legs on your side and walk backwards until the frame is fully extended, the corner sliding joint automatically clicks into place.

3

Once the frame is fully extended, screw the lugs into each corner of the frame until they are secured tightly.

4

Once the table is secure, place the blow moulded table top onto of the frame. There are four circular holes on each corner of the counter top that place over the lugs.

5

Secure the counter frame to the corner leg on your gazebo using the clamps provided, this will add more strength and stability to your counter frame.
