3M COUNTER GUIDE

1

Open and remove all items from the box labelled 'counter frame and clamps'.

2

Ensuring that two people are erecting the shelter, stand opposite your partner. Take hold of the two corner legs and both walk backwards until the frame is fully extended, the corner sliding joint automatically clicks into place.

3

Once the frame is fully extended, screw the lugs into each corner of the frame until they are secured tightly.

4

Once everything is secure, place the blow moulded counter top onto of the frame. There are four circular holes on each corner of the counter top that place over the lugs.

3M COUNTER GUIDE

5

The square blocks on the bottom of the blow moulded counter tops should sit over the round joints on the counter frame.

6

Secure the counter frame to the corner leg on your gazebo using the clamps provided, this adds more strength and stability to your counter frame.
