

# INSTANT SHELTERS

---

A STEP-BY-STEP GUIDE TO  
USING THE A VALANCE WRAP

# VALANCE WRAP GUIDE

1

Erect the instant shelter to mid-height. Loop the elastic bands on the inside of the banner over the corner baubles of the shelter.

2

Wrap the banner around each side of the valance keeping tension where possible and repeat step 1 for each corner.

3

Attach opposite ends of the banner together using the velcro strips running down vertically. There is also small velcro strips on the bottom of the banner that attach to the inside velcro of the shelter valance to increase tension.

4

Make sure the valance wrap is attached securely and increase shelter to desired height.
